Petition to Add Inventors

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir/Madam:

On February 20, 2007, the USPTO mailed a "Notification of Missing Requirements under 35 U.S.C. 371 In the United States Designated/Elected Office (DO/EO/US)" document. In that document, the USPTO wrote, "the current oath or declaration does not comply with 37 CFR 1.497(a) and (b) in that . . . the 5th through 9th inventors were not listed on the cover page of the International Application, as inventors for the U.S. Please submit a corrected declaration or submit the appropriate petition papers (if attempting to add inventors).

According to 37 CFR 1.497(d):

If the oath or declaration filed pursuant to 35 U.S.C. 371(c)(4) and this section names an inventive entity different from the inventive entity set forth in the international application, . . . or this section and the inventive entity thus changed is different from the inventive entity identified in any such oath or declaration, applicant must submit:

(1) A statement from each person being added as an inventor . . . that any error in inventorship in the international application occurred without deceptive intention on his or her part;

(2) The processing fee set forth in § 1.17(i) - See Form 2038 for \$130; and

(3) If an assignment has been executed by any of the original named inventors, the written consent of the assignee (see § 3.73(b) of this chapter) NOT APPLICABLE; and

(4) Any new oath or declaration required by paragraph (f) of this section.

In accordance with the guidelines set forth in 37 CFR 1.497(d), we submit this petition in accordance to the facts of the present case.

We submit this petition to add inventors to the above-identified application. The inventors that need to be added by this petition are Mark Gelmont, Orly Cohen, Avi Ben-Zvi, Michael Peled, and Ron Frim.

This amendment is necessitated because U.S. patent application serial number 10/588,398 is a continuation-in-part application of international application no. PCT/IL2005/000554 filed on May 30, 2005. That information was clearly and unambiguously identified on (1) the "transmittal letter to the United States Designated/Elected Office (DO/EO/US) Concerning a Submission Under 35 U.S.C. 371)" document and (2) the declaration documents.

In addition the applicants submitted an extensive preliminary amendment that clearly and unambiguously sets forth that there is more information disclosed in U.S. patent application serial number 10/588,398 than international application no. PCT/IL2005/000554.

In view of (1) the disclosure that U.S. patent application serial number 10/588,398 is a continuation-in-part application of international application no. PCT/IL2005/000554, and (2) the extensive preliminary amendment that clearly and unambiguously sets forth that there is more information disclosed in U.S. patent application serial number 10/588,398 than international application no. PCT/IL2005/000554; the applicants took great care in making sure the inventors for U.S. patent application serial number 10/588,398 were correctly identified. The inventors were correctly identified.

The inventors for U.S. patent application serial number 10/588,398 and international application no.

Serial no.: 10/588,398

PCT/IL2005/000554 are different because there is more information disclosed in U.S. patent application serial number 10/588,398 than international application no. PCT/IL2005/000554. The additional information contained in U.S. patent application serial number 10/588,398 required acknowledgement of more inventors. If there was an inventorship error it was made without deceptive intention on anyone's part, and was expeditiously discovered and amended pursuant to the USPTO's "Notification of Missing Requirements under 35 U.S.C. 371 In the United States Designated/Elected Office (DO/EO/US)" document. Each inventor has executed this document to confirm the same.

We have also enclosed a supplemental executed declaration that all inventors have executed.

We also enclose the requisite fee per § 1.17(i) of \$130 in attached Form 2038.

Respectfully submitted,
